PROFESSIONAL SUMMARY

Junior Full Stack Developer with experience building and maintaining business management applications using React, TypeScript, and Node.js. I integrate REST APIs and implement business rules with validation and automated testing.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, and React Router.
Backend and data: Node.js, Express, REST APIs, MySQL, SQL, and Prisma.
Tools and quality: Git, automated testing (node:test), debugging, and error handling.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer — AlphaDev

Guadalajara, Jalisco | February 2025 – Present

• Developed and maintained REST APIs for customers, memberships, and service orders used by the team's frontend.
• Implemented membership renewals with photo review, idempotent payment attempts, and transactional updates to existing membership records.
• Added rewards and warranty services and advisor permission controls, with migrations and automated business-rule tests.

SELECTED PROJECTS

Leasing platform · Professional team project | React, TypeScript, Node.js

• Extended receivables tracking across the UI, API, and PDF/Excel reports; implemented insurance policy controls using transactions and row locking.

Inventory and sales system · Professional team project | React, TypeScript, Prisma

• Implemented operation audit trails, idempotency, and concurrency controls; extended cost recalculation logic and monthly closing breakdowns.

Patient portal | React, TypeScript, Sails.js

• Built specialist search, availability, and appointment booking; refined server-side time-slot normalization and conflict responses.
