PROFESSIONAL SUMMARY

Backend developer experienced in APIs and business rules for memberships, accounts receivable, and inventory. I implement validation, relational queries, transactions, and idempotency, maintaining existing systems through automated tests and debugging.

TECHNICAL SKILLS

Node.js, JavaScript, TypeScript, Express, and REST APIs.
MySQL, SQL, Prisma, Knex, migrations, and transactions.
JWT, role-based permissions, automated testing (node:test), and Git.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer — AlphaDev

Guadalajara, Jalisco | February 2025 – Present

• Developed and maintained REST APIs for customers, memberships, and service orders used by the team's frontend.
• Implemented membership renewals with photo review, idempotent payment attempts, and transactional updates to existing membership records.
• Added rewards and warranty services and advisor permission controls, with migrations and automated business-rule tests.

SELECTED PROJECTS

Lease management · Professional team project | TypeScript, Express, MySQL

• Implemented insurance policy validations with transactions and row-level locking; extended accounts receivable queries and exports with tracking and synchronization data.

Inventory and sales · Professional team project | TypeScript, Prisma, MySQL

• Added operation auditing and idempotency, serializable transactions, and per-product locking to an existing inventory API.

Reporting and appointments API | Node.js, Sails.js, MySQL

• Extended reports with finalization checks and retryable PDF generation; normalized appointment times and conflict responses.

EDUCATION

Systems and Information Technology Engineering — UNIVA

Guadalajara, Jalisco | September 2022 – December 2025
Program completed; degree award pending.

LANGUAGES

Spanish: native. English: A2 (elementary), currently studying.
