PROFESSIONAL SUMMARY

Frontend developer with experience building business applications and patient portals with React and TypeScript. I build interfaces integrated with REST APIs, with form validation and loading, empty, and error states.

TECHNICAL SKILLS

React, TypeScript, JavaScript, HTML, CSS, and React Router.
React Hooks, Context API, Fetch, Axios, Vite, and Git.
REST integration, forms, pagination, and interface debugging.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer — AlphaDev

Guadalajara, Jalisco | February 2025 – Present

• Built React and TypeScript interfaces and forms for inventory, trips, and sales, integrating team-provided REST APIs.
• Extended collections, pro forma invoice, and partial-payment forms, using TypeScript services to align UI data with API contracts.
• Built specialist search, filters, and appointment booking with a typed API client, validation, and loading, empty, and error states.

SELECTED PROJECTS

Patient portal | React, TypeScript

• Developed appointment and patient settings views; fixed profile photo updates and retrieval through the API.

Produce inventory and sales | React, TypeScript, REST APIs

• Implemented sales by box and kilogram with quantity validation and stock checks before submitting each sale.

Lease management platform · Team project | React, TypeScript

• Added follow-up dates and last-sync information to the receivables view, aligning displayed data with server responses.

EDUCATION

Systems and Information Technology Engineering — UNIVA

Guadalajara, Jalisco | September 2022 – December 2025
Program completed; degree award pending.

LANGUAGES

Spanish: native. English: A2 (elementary), currently studying.
